### PROFILE

I am a fifth-year Information Technology Engineering student at Damascus University, specializing in Software Engineering. With two years of hands-on experience in Flutter development, I am eager to apply my skills in a professional setting. I am seeking an internship or a job opportunity within my field to further enhance my technical expertise, contribute to innovative projects, and grow as a developer.

### PROJECTS

### SKILLS

- Dart & Flutter
- API Integration & API Calls
- State Management (Bloc/Cubit)
- Local Storage (Shared Preferences / Hive)
- Responsive UI Design
- Firebase Integration
- Flutter Maps
- Localization & Internationalization
- Dark/Light Mode Support
- UI Animations
- Stripe Payment Integration
- Clean Architecture
- Clean Code Principles
- Version Control (Git & GitHub)
- API Testing (Postman / Hoppscotch)

#### YallaWork

Mobile application for job seekers, both for full-time employment and freelance opportunities. The app connects users with job listings and allows them to apply for various positions.

**YallaChat:** Integrated chat feature within YallaWork to enable direct communication between job seekers and employers, facilitating easier interactions and quicker responses.
